# Wine Feature

Angove Family Winemakers is a fifth-generation family company with a tradition of excellence and passion for sustainable and organic wine production.

In 1886, after emigrating from England, Dr. William Thomas Angove began growing grapes and producing wine in Tea Tree Gully, South Australia. 130 years later, the Angove family continue this legacy, crafting premium wines with grapes grown in McLaren Vale and the Riverlands.

While some traditional methods (basket pressing) are still undertaken, the new generation of Angove leaders are progressive and innovative with a strong focus on developing sustainable wines for a new generation of environmentally conscious drinkers.

Angove Family Winemakers are committed to sustainable vineyard management and wine production and are the largest organic wine producers in Australia. The family's premium wines - Alternatus, Family Crest, Wild Olive and Warboys are crafted with fruit from organic, sun kissed vines grown in McLaren Vale. The vines thrive in mineral rich soils and breath the sea air from the Great Southern Ocean. These wines are a true expression of the land and people that cultivate them, each glass delivers a true 'sense of place' experience.
